CYB 510	Introduction to Security Technology	3
CYB 501		1
CYB 502		1
CYB 550	Cyber Policy	3
CYB 660	Programming for Security Analytics	1

Writing Requirement

Students must complete a paper of quality that would satisfy the substantial paper component of the Advanced Writing Requirement OR two shorter writings that relate to privacy and/or cybersecurity. The topic for the written work(s) must be approved by the Concentration Director. However, any writing completed for a course listed under the Mandatory Courses, Core Elective Requirement, and Remaining Credit Requirement (except for Externship) shall satisfy the Writing Requirement upon presentation to the Concentration Director. A paper written for a journal may also qualify for the Writing Requirement if it is preapproved by the Concentration Director. Optional Capstone: Students are encouraged to prepare for and take examinations to obtain privacy or security professional credentials. Should a student complete the CIPP certification from the IAPP, or any other professional credential approved by the Concentration Director, the Associate Director for Academic Affairs and the Concentration

Director shall give strong consideration to a waiver of any requirement provided above provided that the student has completed the Mandatory Courses, at least 14 of the required
